

# TS422

## S/4HANA Production Planning & Manufacturing Academy Part II 1/2

**PARTICIPANT HANDBOOK**  
**INSTRUCTOR-LED TRAINING**

Course Version: 14

Course Duration: 10 Day(s)

Material Number: 50152381

# Contents

## ix Course Overview

### 1 Unit 1: Introduction to Production Orders

2	Lesson: Outlining SAP Fiori and the System Landscape
7	Exercise 1: Login to the SAP Systems and Access the SAP Fiori Launchpad
12	Lesson: Outlining Production Orders
19	Exercise 2: Analyze Master Data
33	Exercise 3: Create Planned Independent Requirements, Run MRP, and Convert a Planned Order

### 45 Unit 2: Order Processing and Order Structure

46	Lesson: Processing a Production Order
49	Exercise 4: Execute a Production Order
60	Lesson: Analyzing the Order Structure
63	Exercise 5: Analyze the Production Order Structure

### 83 Unit 3: Order Creation

84	Lesson: Creating Production Orders
91	Exercise 6: Create Production Orders by Planned Order Conversion
103	Exercise 7: Create a Production Order with Material and Copy a Production Order
107	Exercise 8: Create a Production Order without Material
111	Exercise 9: Create Production Orders for Sales Orders
126	Lesson: Analyzing Master Data Selection
139	Exercise 10: Define an Order Type
145	Exercise 11: Analyze Master Data Selection
164	Lesson: Scheduling Production Orders
169	Exercise 12: Set Up and Analyze Scheduling
179	Lesson: Describing the Costing of Production Orders
181	Exercise 13: Analyze the Calculation of the Planned Costs

**193 Unit 4: Availability Checks, Capacity Planning, Order Release and Printing**

194	Lesson: Performing Availability Checks
201	Exercise 14: Set Up and Perform Material Availability Checks
227	Lesson: Discussing Capacity Planning
233	Exercise 15: Use Capacity Evaluation and Capacity Leveling Tools
252	Lesson: Releasing Production Orders
257	Exercise 16: Release Production Orders
267	Exercise 17: Define and Test a Production Scheduling Profile
275	Exercise 18: Analyze and Test a User Status Profile
285	Lesson: Printing Shop Floor Papers
289	Exercise 19: Print Shop Floor Papers

**307 Unit 5: Order Execution**

308	Lesson: Performing Material Staging and Goods Issue Postings
319	Exercise 20: Post Goods Issues with the Goods Movements App and with the Picking List
345	Exercise 21: Stage Materials with the Pull List
357	Exercise 22: Post Goods Issues via Backflushing
363	Exercise 23: Stage Materials with KANBAN
378	Lesson: Confirming Production Orders
385	Exercise 24: Check the Customizing Settings for Confirmations
389	Exercise 25: Confirm Operations and Production Orders
429	Lesson: Posting Goods Receipts
433	Exercise 26: Post Goods Receipts

**461 Unit 6: Order Settlement, Archiving, and Deletion**

462	Lesson: Performing Order Settlement
467	Exercise 27: Settle a Production Order
476	Lesson: Archiving and Deleting Production Orders
479	Exercise 28: Archive and Delete a Production Order

**491 Unit 7: Information Systems, Mass Processing, and Automation**

492	Lesson: Outlining Informations Systems and Reporting
495	Exercise 29: Analyze Production Data with the Order Information System
499	Lesson: Outlining Mass Processing and Automation
503	Exercise 30: Get an Overview of the Mass Processing Functions
505	Exercise 31: Execute a Trigger Point
513	Lesson: Outlining the Data Exchange with the Process Control Level

**521      Unit 8:      Further and Advanced Functions**

522	Lesson: Performing Order Splits
527	Exercise 32: Split Production Orders
543	Lesson: Creating Shift Notes and Shift Reports
551	Exercise 33: Create Shift Notes and Shift Reports
563	Lesson: Outlining SAP S/4HANA Manufacturing for Production Engineering and Operations

# TS422

## S/4HANA Production Planning & Manufacturing Academy Part II 2/2

**PARTICIPANT HANDBOOK**  
**INSTRUCTOR-LED TRAINING**

Course Version: 14

Course Duration: 10 Day(s)

Material Number: 50152381

# Contents

## ix Course Overview

### 1 Unit 1: Overview of Production Execution

2	Lesson: Outlining Production Types
5	Exercise 1: Log In to the SAP Systems and Access the SAP Fiori Launchpad

### 13 Unit 2: Production with Process Orders

14	Lesson: Exploring Process Orders: Characteristics and Execution
59	Exercise 2: Analyze Master Data
83	Exercise 3: Create Planned Independent Requirements and Run MRP
93	Exercise 4: Schedule a Planned Order Conversion Run and Display Process Orders
109	Exercise 5: Execute Process Orders

### 131 Unit 3: Production with Repetitive Manufacturing

132	Lesson: Exploring Repetitive Manufacturing: Characteristics and Execution
147	Exercise 6: Analyze Master Data
157	Exercise 7: Create Planned Independent Requirements and Run MRP
167	Exercise 8: Schedule Line Loading
177	Exercise 9: Execute Repetitive Manufacturing

### 189 Unit 4: Material Staging with Kanban

190	Lesson: Exploring Kanban: Characteristics and Execution
201	Exercise 10: Create Master Data
205	Exercise 11: Trigger Material Replenishment

### 221 Unit 5: Introduction to Capacity Planning

222	Lesson: Outlining SAP Fiori and the System Landscape
227	Exercise 12: Login to the SAP Systems and Access the SAP Fiori Launchpad
232	Lesson: Outlining S/4HANA Capacity Planning
241	Exercise 13: Create Planned Independent Requirements, Run MRP and Evaluate Capacity Requirements
251	Exercise 14: Analyze Master Data Relevant for Capacity Planning

**261 Unit 6: Capacity Evaluation**

262	Lesson: Evaluating with the Work Center Load Report
277	Exercise 15: Evaluate Capacities Using the Work Center Load Report
286	Lesson: Using Further Capacity Evaluation Reports
291	Exercise 16: Evaluate Capacities Using Further Evaluation Reports
301	Lesson: Evaluating with the Manage Work Center Capacity App
305	Exercise 17: Evaluate Capacities Using the Mange Work Center Capacity App

**313 Unit 7: Capacity Leveling: Tabular Planning Table and Schedule Production App**

314	Lesson: Navigating the Tabular Planning Table
321	Exercise 18: Navigate the Tabular Planning Table
335	Lesson: Dispatching Operations in the Tabular Planning Table
339	Exercise 19: Dispatch Operations in the Tabular Planning Table
356	Lesson: Capacity Leveling Using the Schedule Production App
365	Exercise 20: Dispatch Orders in the Schedule Production App

**395 Unit 8: Capacity Leveling: Graphical Planning Table**

397	Lesson: Navigating the Graphical Planning Table
401	Exercise 21: Navigate the Graphical Planning Table
412	Lesson: Using Basic Scheduling and Dispatching Control Settings
421	Exercise 22: Check Basic Scheduling and Dispatching Control Settings
444	Lesson: Using Additional Scheduling Control Settings for Interactive Planning
451	Exercise 23: Check Additional Scheduling Control Settings for Interactive Planning
468	Lesson: Using Floats to Limit Dispatching
473	Exercise 24: Use Floats to Limit Dispatching
496	Lesson: Using Period Splits in Dispatching
499	Exercise 25: Use Period Splits in Dispatching
518	Lesson: Using Dispatching Sequences and Methods for Setup Time Optimization
523	Exercise 26: Use Dispatching Sequences and Setup Time Optimization
541	Lesson: Dispatching and Rescheduling with Production Versions
545	Exercise 27: Dispatch with Production Versions

**561      Unit 9:      Further Capacity Planning Topics**

562                      Lesson: Dispatching and Deallocating Operations Using Background Processing

565                      Exercise 28: Dispatch and Deallocate Operations Using Background Processing

574                      Lesson: Modelling Down Times in Capacity Planning

577                      Exercise 29: Model Downtimes in Capacity Planning
